WATCH OUT FOR THE PERFORATION!

For Wall Calendars and Table Calendars, it is recommended to place important elements such as text, titles, logos, and images at least **2cm** away from the top cut.

ATTENTION!

The layouts of **Wall Calendars** and **Table Calendars** have a consecutive sequence and so they can be loaded in order.

We would like to inform you that the printing will be done by optimizing the sequence so that the calendar can only be flipped once during its use.
